# T. DINESH

**Team Lead – IT Infrastructure, Operations & Security**

Visakhapatnam, India | +91-8331956172 | dineshtankala85@outlook.com | linkedin.com/in/dinesh-tankala | dinesh371.github.io/My-Portfolio

## PROFESSIONAL SUMMARY

IT Infrastructure, Operations and Security professional with 8+ years of experience across enterprise IT support, systems administration, cloud and SaaS administration, Identity and Access Management (IAM), endpoint security, ITSM and network infrastructure. Currently serving in a Team Lead capacity, coordinating day-to-day operations, incident priorities, escalations and SLA performance while administering a broad portfolio of enterprise platforms. Proven track record in access governance, endpoint security enhancement, user lifecycle management, vendor coordination, license governance and continuous service improvement.

## CORE SKILLS

| | |
|---|---|
| • **Team Leadership & Technical Guidance** | • **Enterprise IT Operations** |
| • **ITSM & SLA Management** — Jira | • **Incident & Escalation Management** |
| • **Cloud & SaaS Administration** — Google Workspace, Microsoft 365 | • **Identity & Access Management (IAM)** — Okta, SSO, MFA |
| • **Endpoint Security & EDR** — CrowdStrike, Webroot | • **Patch & Vulnerability Management** — NinjaOne |
| • **Firewall Administration** — Sophos, SonicWall, WatchGuard | • **Network Monitoring** — PRTG |
| • **Infrastructure Monitoring & Virtualization** — Proxmox | • **IT Asset & License Management** — Snipe-IT |
| • **User Lifecycle Management (JML)** | • **SOC Audit & Compliance** — ISO 27001, ITIL |
| • **IT Vendor Management** | • **Root Cause Analysis** |
| • **Disaster Recovery Planning** | • **Enterprise Applications & Tools** — Wrike, Lucid, TeamViewer, Scribe, GPanel, greytHR, ADP |

## PROFESSIONAL EXPERIENCE

**Team Lead – IT Infrastructure & Operations**, *Pro-Vigil Surveillance Services* **Sep 2023 – Present**

*Visakhapatnam, India*

- Lead day-to-day enterprise IT operations, administering platforms across endpoint security, cloud/SaaS, IAM, ITSM, network, monitoring, virtualization and asset management.
- Prioritize incidents, service requests and technical escalations, coordinating support activities to meet SLA targets and minimize business disruption.
- Guide and mentor L1/L2 support engineers on troubleshooting, incident handling, SaaS administration, endpoint security and standard operating procedures.
- Administer NinjaOne, CrowdStrike EDR and Webroot for device monitoring, patching, security controls and vulnerability remediation across the endpoint fleet.
- Manage enterprise laptops and workstations across provisioning, configuration, maintenance, compliance and lifecycle management.
- Administer Google Workspace and Microsoft 365/Office 365 alongside RingCentral, KnowBe4, Spanning and Zoom to maintain secure access, data retention and service continuity, reducing security risk exposure.
- Manage Okta identity and access controls — SSO, MFA, access governance and user provisioning/deprovisioning.
- Automate onboarding and offboarding workflows, improving provisioning efficiency and access governance across US and India Joiner-Mover-Leaver (JML) processes.
- Administer Jira ITSM workflows, queues, service requests and SLA policies; perform advanced incident triage and root cause analysis for critical issues.
- Support Visakhapatnam, Hyderabad, HQ and SOC network environments; administer firewall policies and monitor infrastructure availability and health through PRTG, adding sensors and alerts for proactive incident response.

- Administer Proxmox virtualization environments for SOC and HQ operations, and support Matrix/COSEC physical security systems.
- Manage IT assets through Snipe-IT and drive license lifecycle governance, vendor management and daily operational checklist reviews.
- Support SOC audit and compliance activities across cloud and SaaS applications — reviewing access, security controls, licensing and related supporting documentation, and coordinating remediation of identified gaps.

***Key Contributions:***

- Implemented Okta Single Sign-On across enterprise applications, strengthening authentication security and simplifying access management.
- Leveraged endpoint security, EDR, patch management and security monitoring tools to proactively mitigate threats, reduce vulnerabilities and minimize overall security risk across enterprise endpoints.
- Improved endpoint security through structured patching and proactive vulnerability remediation, contributing to a 30% reduction in endpoint security incidents.
- Supported enterprise IT operations for 300+ users and maintained 500+ enterprise endpoints across onsite and remote environments.
- Administered and monitored 50+ enterprise applications, improving service visibility and ticket resolution through structured Jira and NinjaTicketing workflows.

**System Support Specialist**, *Dynata* **Dec 2021 – Sep 2023**

- Delivered L2/L3 enterprise support for Windows servers, desktops and business applications supporting global users.
- Managed incidents and service requests through Jira within defined SLA and escalation timelines.
- Supported onboarding/offboarding, endpoint provisioning, system configuration, asset tracking and access administration.
- Assisted audit readiness through access reviews, endpoint compliance reporting and security documentation.

**Technical Engineer**, *HBL Power Systems Ltd.* **Jan 2021 – Dec 2021**

- Supported server, network and firewall operations; maintained routers, switches, servers and structured cabling infrastructure.
- Diagnosed system and network performance issues and supported upgrades, preventive maintenance and security controls.

## EARLIER EXPERIENCE

- IT Support Executive, Piramal Swasthya Management & Research Institute — Feb 2019 – Jan 2021
- IT Support Engineer, Progressive Infovision Pvt. Ltd. — Nov 2018 – Dec 2018
- Network Engineer – NOC, Pioneer Elba's Ltd. — Dec 2017 – Oct 2018

## SELECTED PROJECTS

- Enterprise Identity Management: Implemented Okta SSO and MFA controls across enterprise applications to strengthen authentication and access governance.
- Endpoint Security Enhancement: Administered endpoint protection and EDR platforms; established structured vulnerability assessment and patch management processes.
- Infrastructure & Server Administration: Administered Windows/Linux environments, network infrastructure, monitoring, virtualization, access controls and routine maintenance.

## CERTIFICATIONS

- Azure Administrator Associate (AZ-104) — *Microsoft*
- Azure Fundamentals (AZ-900) — *Microsoft*
- Microsoft Certified Professional (MCP) — *Microsoft*
- Microsoft Technology Associate (MTA) — *Microsoft*
- Microsoft 365 Administration Certification — *Microsoft*
- RingCentral Certified Professional (2024) — *RingCentral*

## EDUCATION

Bachelor of Computer Applications (BCA), Aditya Degree College, Visakhapatnam, AU — 2014 – 2018

Languages: English, Hindi, Telugu, Odia
