EDUCATION

- 🔑 Bachelor of Computer Applications (BCA)
Aditya Degree College,
Vishakhapatnam, AU
2014 – 2018

CORE COMPETENCIES

- ➔ Enterprise IT Operations
- ➔ System & Infrastructure Administration
- ➔ Identity & Access Management
- ➔ Endpoint Management & Security
- ➔ IT Service Management (ITSM)
- ➔ Patch & Vulnerability Management
- ➔ Microsoft 365 & Google Workspace Administration
- ➔ Incident Management & Root Cause Analysis
- ➔ IT Asset & Lifecycle Management
- ➔ Network Infrastructure Administration
- ➔ Vendor & Asset Management
- ➔ Security Compliance & Audit Readiness
- ➔ Single Sign-On (SSO) Implementation

JOB OBJECTIVE

Targeting **strategic roles in IT Infrastructure & Enterprise IT Operations** where expertise in system administration, identity and access management, endpoint governance, & IT service management can be leveraged to strengthen operational reliability, enhance security posture, & support scalable enterprise technology operations.

PROFILE SUMMARY

- ➔ Accomplished IT Infrastructure & Enterprise IT Operations professional with over 8 years of experience managing secure, scalable, & high-availability enterprise systems & platforms.
- ➔ Displayed expertise in Identity & Access Management (IAM), endpoint governance, and enterprise system administration across complex IT ecosystems.
- ➔ Proven skills to enhance operational stability & service reliability through structured IT service management, **SLA-driven incident management**, and consistent service delivery performance.
- ➔ Expert in strengthening organizational security posture through **IAM controls, endpoint protection policies, proactive patch governance, and vulnerability remediation**, ensuring audit-ready compliance practices.
- ➔ Experienced in administering enterprise SaaS and collaboration platforms including **KnowBe4, RingCentral, TeamViewer, Lucid, Scribe, Wrike, Adobe Admin Console, Jira, Zoom, NinjaOne, Webroot, and Sophos**, ensuring secure access management and operational continuity.
- ➔ Recognized for driving process optimization & operational efficiency across infrastructure operations, endpoint management, & IT service delivery through **proactive monitoring and continuous service improvement initiatives**.

WORK EXPERIENCE

System Administrator | Pro-Vigil Surveillance Services, Visakhapatnam | Sep'23 – Present

- ➔ Managing enterprise IT operations spanning **identity & access governance, endpoint security, asset lifecycle management, & ITSM processes** across onsite & distributed users.
- ➔ Driving the **end-to-end incident management lifecycle**, performing advanced triage, root cause analysis, & timely resolution while ensuring strict adherence to organizational SLAs.
- ➔ Configuring and optimizing **Jira ITSM platform**, including workflows, queues, service requests, SLA policies, and automation rules to strengthen operational visibility and service delivery efficiency.
- ➔ Leading **enterprise endpoint management through NinjaOne**, ensuring secure device provisioning, OS and application patch deployment, vulnerability remediation, monitoring, and compliance reporting.
- ➔ Supervising **Google Workspace ecosystem**, managing user provisioning, group configurations, security policies, and Joiner–Mover–Leaver lifecycle governance.
- ➔ Managing **Microsoft 365 tenant operations**, including user access control, licensing governance, & implementation of security policies supporting enterprise productivity platforms.
- ➔ Supporting **SOC audit & compliance initiatives** by generating IAM logs, endpoint security evidence, patch compliance reports, & maintaining structured audit documentation.
- ➔ Administering **LAN and Wi-Fi infrastructure through Ruckus controllers and access points**, maintaining stable connectivity and secure wireless network performance.
- ➔ Driving continuous improvement initiatives to **strengthen security posture, optimize operational workflows, and enhance enterprise IT service efficiency**.

Key Highlights:

- ➔ Ensured consistent SLA adherence across enterprise IT operations, strengthening service reliability and minimizing service disruptions.
- ➔ Implemented **Okta Single Sign-On (SSO)** across enterprise applications, enhancing authentication security and streamlining user access management.
- ➔ Strengthened endpoint security posture by enforcing timely OS & application patching, proactively addressing zero-day vulnerabilities, & **reducing endpoint security incidents by 30%**.
- ➔ Enhanced access governance through structured **IAM access control policies**, reducing audit observations and strengthening compliance readiness.
- ➔ Maintained accurate enterprise IT asset inventory across onsite and remote assets, supporting audit requirements and improving infrastructure visibility.
- ➔ Managed and supported **IT infrastructure for 300+ users** across enterprise platforms, ensuring stable and secure IT operations.
- ➔ Improved ticket resolution efficiency through structured **ITSM workflows using Jira & NinjaTicketing**, enabling faster incident response & enhanced service delivery.

CERTIFICATIONS

- ➔ Microsoft Certified: Azure Administrator Associate (AZ-104)
- ➔ Microsoft Certified: Azure Fundamentals (AZ-900)
- ➔ Microsoft Certified Professional (MCP)
- ➔ Microsoft Technology Associate (MTA)
- ➔ Microsoft 365 Administration Certification
- ➔ RingCentral Certified Professional, 2024

TECHNICAL SKILLS

- ➔ IT Service Management (ITSM): Jira, ITSM Administration
- ➔ Endpoint Management & Security: NinjaOne, Webroot, Sophos Endpoint
- ➔ Collaboration & Communication Platforms: Zoom, RingCentral, TeamViewer
- ➔ Identity & Productivity Platforms: Microsoft 365, Google Workspace
- ➔ Network Infrastructure: Ruckus Wireless (Wi-Fi Controllers, Access Points)
- ➔ Enterprise SaaS & Work Management: Wrike, Lucid, Scribe
- ➔ Security Awareness & Compliance Tools: KnowBe4
- ➔ Creative & Content Tools: Adobe Admin Console
- ➔ Operating Systems & Infrastructure: Windows Server, Linux Administration
- ➔ Network & Infrastructure Technologies: LAN, Wi-Fi Networking
- ➔ DevOps & Web Hosting: GitHub, Static Website Hosting, Version Control

PERSONAL DETAILS

- Date of Birth : 1st July 1997
- Languages : English, Hindi, Known Telugu, Odia

System Support Specialist | Dynata | Dec’21 – Sep’23

- ➔ Delivered L2/L3 enterprise IT support for Windows servers, desktops, and business applications supporting global user operations.
- ➔ Managed service requests and incidents through Jira ticketing platform, ensuring resolution within defined SLA timelines and escalation protocols.
- ➔ Facilitated employee onboarding and offboarding processes, including endpoint provisioning, system configuration, and asset tracking.
- ➔ Contributed to audit readiness initiatives by assisting with periodic access reviews, endpoint compliance reporting, and supporting documentation for security audits.

Technical Engineer | HBL Power Systems Ltd. | Jan’21 – Dec’21

- ➔ Supported enterprise IT infrastructure operations including server management, network administration, and firewall configurations.
- ➔ Installed, configured, and maintained routers, switches, servers, and structured cabling infrastructure supporting enterprise connectivity.
- ➔ Diagnosed and resolved network and system performance issues, ensuring system availability and operational continuity.
- ➔ Assisted with system upgrades, preventive maintenance activities, and implementation of security controls across infrastructure components.

PREVIOUS EXPERIENCE

IT Support Executive | Piramal Swasthya Management & Research Institute | Feb’19 – Jan’21

Network Engineer – NOC | Pioneer Elba’s Ltd. | Dec’17 – Oct’18

IT Support Engineer | Progressive Infovision Pvt. Ltd. | Nov-Dec’18

PROJECTS

Enterprise Identity Management Implementation

- ➔ Implemented Okta-based Single Sign-On (SSO) across enterprise applications to streamline authentication and strengthen access security.
- ➔ Enforced multi-factor authentication (MFA) and advanced login security policies to mitigate unauthorized access risks and enhance identity governance.

Endpoint Security Enhancement

- ➔ Administered enterprise Endpoint Detection & Response (EDR) and endpoint protection platforms to safeguard organizational systems against cyber threats.
- ➔ Deployed crowed strike & Webroot Sophos Endpoint Security and established structured vulnerability assessment and patch management processes to improve endpoint resilience and compliance.

Infrastructure & Server Administration

- ➔ Administered and maintained Linux and Windows Server environments, ensuring high availability, stability, and security of enterprise systems.
- ➔ Managed server configurations, user access controls, system hardening, and routine maintenance activities to maintain optimal infrastructure performance.
- ➔ Hosted and maintained web-based projects utilizing version control systems & production deployment workflows to support continuous updates & availability.

Infrastructure Metrics

- ➔ Supported and maintained 500+ enterprise endpoints, ensuring operational continuity and security compliance.
- ➔ Administered and monitored 50+ enterprise applications across the organization.
- ➔ Resolved and managed 20,000+ IT service tickets annually, delivering timely technical support and issue resolution.

Leadership & Team Coordination

- ➔ Collaborated with vendors and cross-functional internal teams to deploy and maintain IT infrastructure solutions.
- ➔ Led incident response and troubleshooting efforts during critical system outages to minimize downtime and service disruption.
- ➔ Ensured adherence to Service Level Agreements (SLAs) for IT service delivery and operational support.
- ➔ Mentored and trained L1 support engineers on IT operations, SaaS administration, and incident management practices.
